A tough network dome camera fully featured for demanding environments, and includes JVC new "Fine Adjust" focusing [Patent Pending]

- 1.3 Megapixel High-Quality JPEG Stream [VN-X235VPU only]
Up to Quad VGA (1280x960) resolution images available for precise monitoring
- MPEG-4/Motion JPEG Dual Stream
Simultaneous distribution of MPEG-4 and Motion JPEG images
- Variable-Focal Lens for Accurate Viewing Angles, and Progressive Scan CCD for Precise Clear Images
- Day/Night Function with IR Cut Filter
Automatic switching between day and night for secured round-the-clock surveillance
- Bi-Directional Audio Support
Two-way audio communication is possible when a microphone and speaker are attached

- Dust/Waterproof and Vandal-Resistant Design
IP66-standard robust design suitable for outdoor monitoring system
- Triple Axis Rotation for Flexible Lens Angle Adjustment
- Open Architecture API for Easy Customization
Various settings and customization are possible via network
- An Array of Features to Match Any Usage Environment
 - Free shape privacy mask
 - Built-in motion detection
 - PoE / 24VAC power supply
 - Bandwidth flexibility
 - Optional heater unit for use in low temperatures down to -30°C
 - JVC and Verint API compatibility
 - Web based viewer and setup screen for quick setup and monitoring

■ Distribution Priority Option for JPEG Stream **NEW!**

Two distribution modes are available according to your environment. By controlling the frame rate and the number of accessible clients, it ensures stable monitoring all the time.

Priority to Client Number

Automatically adjusts the frame rate according to the number of clients accessed and assures distribution to all clients (up to 20).

Priority to Frame Rate

Always maintains requested frame rate by clients though number of clients is limited by requested frame rate.

■ Digital PTZ with Preset Patrol Function **VN-X235VPU only**

Select up to 20 clipped areas from within the original image. These areas can be sequentially switched "Auto Patrol", so the viewer concentrates only on the important zones.

■ JVC-Designed Fine Focus Adjustment Technology **NEW!**

For assisting focusing to the finest point, the Variable-Focal lens now incorporates a newly developed focus screw mechanism (Patent Pending).

Normal Focus ring and lock screw

Patent Pending

New "Fine Adjust" screw

With a very subtle movement, finer, more accurate adjustment is possible.

■ IP66-Compliant Rugged Body for Any Installation Location

Ideal for installing in stores, banks or schools regardless of whether it's indoors or outdoors.
