

**DCZ****UNIVERSAL KEYBOARD FOR MANAGING CCTV APPLICATIONS FROM PC****MAIN FEATURES**

USB keyboard for managing CCTV applications, with joystick and jog shuttle

Easy to install and use

Functions determined by the controlled application

Customizable features

For right- and left-handed operators

HID Game Controller emulation for the use with the most important VMS (Avigilon Control Center, Ganz-VsolP, Exacq Vision, Milestone XProtect®, Genetec Omnicast 4.2, Mirasys-DVMS, Seetec ProBox, Sony-Real Shot Manager, Luxriot DVR)\*

*\*Functionality may be limited depending on the VMS used.*

**DESCRIPTION**

The DCZ keyboard comes with jog shuttle, joystick 38 backlit keys, alarm buzzer, and allows the management of CCTV applications from a PC, via USB connection. It can be easily integrated with control systems using basic programming techniques without an SDK.

The keys are recognized in any combination configured by the programmer: the application receives an event message whenever a key is pressed or released.

The DCZ keyboard can control PC applications already on the market, emulating a 4-axis 32 keys HID joystick. It can also be used together with ordinary PC peripheral devices such as keyboards, mouse, joysticks or other accessories.

It is USB powered and so requires only one cable.

The use of the keyboard can be made even more intuitive by personalizing the captions on the key panel: the user can easily personalize the key panel by printing the supplied pre-cut sheets (templates can be downloaded from [www.videotec.com/DCZ](http://www.videotec.com/DCZ)).

The keyboard can be turned round so that both right- and left-handed users can use all the functions with ease.

This simple, user-friendly and fully implementable DCZ keyboard allows a comfortable and intuitive management of CCTV applications from PC.
